Categories: Red Category

This reads ok. The only item is East Chicago is not totally membrane filtration they still have tradition treatment at their old plant.

Mary: I've drafted the attached talking points regarding East Chicago's drinking water and lead. Can you please take a look at it and let me know if you have any concerns. As I mentioned in the voicemail that I left for you, the talking points will be provided to our Superfund staff for a public meeting tonight.
